Live in Vinnytsia, Ukraine

Summary

As a person with strong theoretical knowledge of manual testing, I believe I am a confident candidate for the position of junior QA/QC engineer. I am instantly improving my knowledge, skills, and level of English. I am interested in new technologies, tools, and challenges in a friendly team. I would like to work on a long-term project to be a profitable member of your team.

My attention to detail, maturity, and desire to make the world a better place through participation in the creation of quality software will make me an excellent QA/QC engineer.

I am sure that I will be a useful addition to your IT company.
